

# FILE HANDLING

## 1. Reading

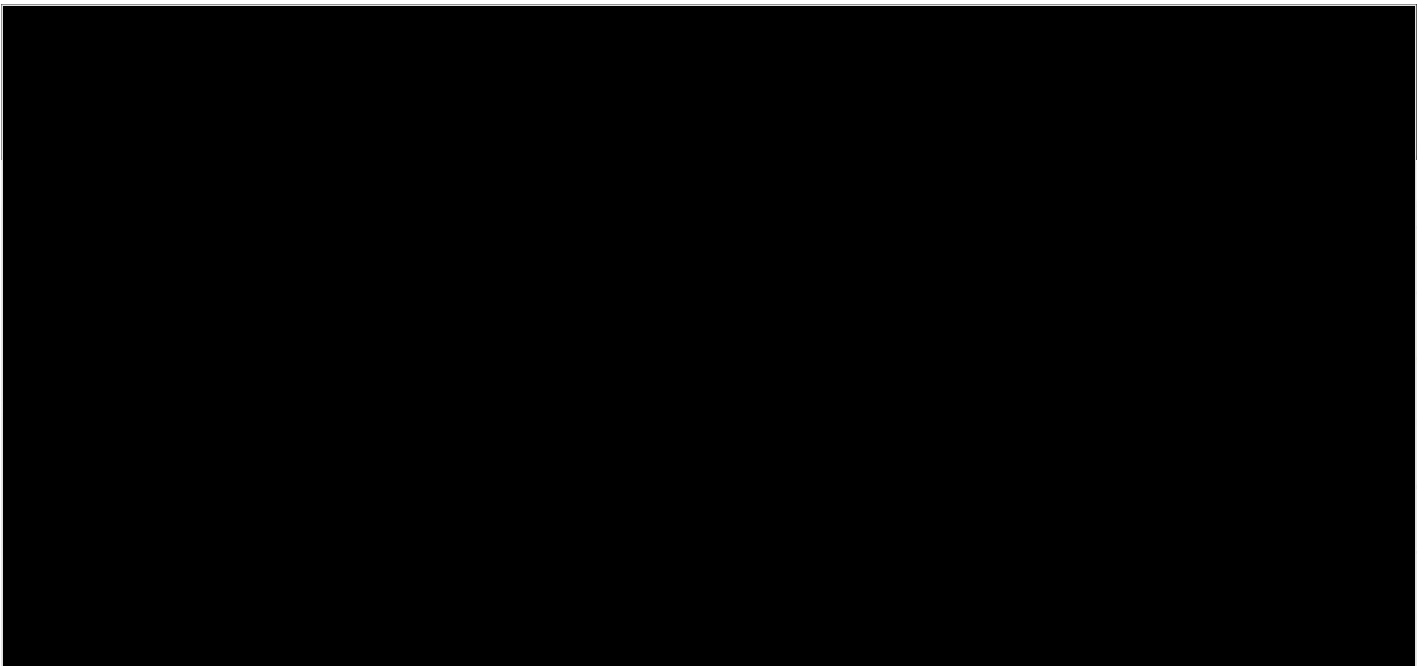

### Program.js

```
var fs = require('fs');  
var filename = "C:/JS-WB-27/File Handling/Input.txt";  
var data = fs.readFileSync(filename,"utf8");  
console.log(data);
```

### Input.txt

Namaste

The video is kept slow-paced and repetitive for beginners. You can increase its speed if desirable.
