```
ExpressJS is running on port 8081  
Doing some Resource Allocation before the main hadler  
Doing some operations and sending data to the browser  
Doing some Resource Deallocation after the main hadler
```

## INDEX.JS

```
1 var express = require('express');
2 var app = express();
3
4 var allocate = function (req,res,next){
5     console.log("Doing some Resource
Allocation before the main hadler");
6     next();
7 };
8
9 var main = function (req,res,next){
10    console.log("Doing some operations and
sending data to the browser");
11    res.send("<h1>!!!Important Data!!!</h1>");
12    next();
13 };
14
15 var deallocate = function (req,res){
16    console.log("Doing some Resource
Deallocation after the main hadler");
17 };
18
19 app.get("/",[allocate,main,deallocate]);
20
21 app.listen(8081, function () {
22    console.log('ExpressJS is running on port 8081');
23 });
```
