

TRAPPING SET

Main.js

```
var t = {  
  a:10,  
  b:20  
};  
  
var h = {  
  get:(target,key) => {  
    console.log("Trying to Access -> " + key);  
    return target[key];  
  },  
  set:(target,key,value) => {  
    console.log("Trying to Write -> " + key + " = " + value);  
    return target[key] = value;  
  }  
};  
  
var proxy = new Proxy(t,h);  
  
console.log(proxy.a);  
console.log(proxy.b);  
  
proxy.a = 100;  
proxy.b = 200;  
  
console.log(proxy.a);  
console.log(proxy.b);
```
