

STAGE 2

```
var EventEmitter = require("events");

console.log("Welcome to EventEmitter");

var em1 = new EventEmitter();

em1.on('overflow', () => {
  console.log('I am overflow Listener');
});

em1.emit('overflow');

em1.on('underflow', function(a, b) {
  console.log(a, b, this);
});

em1.emit('underflow', 'a', 'b');
```
