ENUMERABLE

MAIN.JS

```
   obj1 = {
     a:10,
     b:20,
     c:30
}

console.log("Before");

for(let key in obj1){
    console.log("Key = " + key);
    console.log("Value = " + obj1[key]);
}

Object.defineProperty( obj1 , 'c', { value: 300 , enumerable:
false });

console.log("After");

for(let key in obj1){
    console.log("Key = " + key);
    console.log("Value = " + obj1[key]);
}

console.log("c is now a enumerable property -> " + obj1.c);
```
